

Len's Lounge - The Longest Night

Street Release Date

July 2004

The Longest Night, the new live CD from Cincinnati, Ohio's Len's Lounge recorded live on Winters Eve, 2003 in Jack Quinn's Emerald Ballroom, represents 12 years of Len's Lounge songs. Live staples like After Image and Whirl finally see the light of release and there are a couple of new tunes as well.

Excerpted from - 'Previewing the summer's most anticipated local album releases' by Mike Breen, Cincinnati City Beat

The disc captures Len's Lounge "in stride," according to Roberson. With Mick Stapleton of The Stapletons on drums and Ben Doepke of Homunculus sitting in on keyboards, Roberson says The Longest Night represents "a signal of intent that Len's Lounge is turning back to a little bit more Rock & Roll."

Roberson says that, as a fan of the medium, he's excited to have a live album added to the LL canon.

"I love live CDs, always have," he says. "They seem to have fallen from favor on the critical level, but I love the shit that happens that you don't intend on happening -- the oblique spontaneity and the risk. Music for me is ultimately a document of time and place, and the live recording is a literal illustration of that."
